

## PROMOTION | MARINA BAY

# Sea, sangria and sunsets

**A new sensation has hit Los Cristianos, and that is the Marina Bay Restaurant and Sunset Bar.**

An attractive white building occupying an elevated position next to the Arona Gran Hotel, just behind the Sunday market site and overlooking the sea, Marina Bay is the place to enjoy food and drinks at any time of the day or night. This venue opened on February 1 this year and is already proving to be extremely popular. No wonder, it has an enormous outside garden area bathed by the gentle onshore breezes, with attractive white furniture. Part of this area is covered with artificial grass, while the remainder has wooden flooring. There are 80 tables altogether, of which 45 are outside and enormous parasols provide plenty of shade, while windbreakers are installed to ensure comfort when needed on windy days. Additionally, there is an indoor dining room which is very useful during the winter months, on rainy days, or for those who just prefer to dine indoors.

For those who want to switch off, Marina Bay has an outdoor chillout lounge area where you can relax on a comfortable sofa, watch a beautiful sunset, listen to the gentle mesmerising sound of the tide ebbing and flowing, the ferries moving in and out of the port, and lose track of time while you sip on your favourite tipple. There is an ample cocktails list, and some alcohol free versions, all of which benefit from superb presentation. The wine list is excellent too with reds, whites and rosés ranging from young wines to the more mature crianzas, including some local Tenerife brands and a quality house wine which is available by the bottle or glass.

There are also Champagnes, sangria, 12 different liqueur coffees, not to mention tea, and the bar is fully stocked. The varied international menu provides for all tastes. There is a separate daytime snacks menu with plenty to choose from, including burgers, toasties, omelettes and jacket potatoes. During the day there are usually offers on several dishes, such as barbecued ribs, fish and chips or paella, with drinks included in the already reasonable price, as well as half price jugs of sangria.

If you are popping in for a drink and something sweet, then take a look at the extremely tempting dessert menu which con-

tains cheesecakes, brownies, wonderful ice creams, cakes and gateaux such as the chocoholic's delight: death by chocolate.

Anyone looking for a full meal won't be disappointed as there really is something for everyone at Marina Bay. The starters list includes four classic soups,

seafood, nachos, breads and more. The gourmet burgers are homemade, or you could try sizzling Mexican fajitas. Choose from a great selection of fish and seafood, six different paellas, or a variety of tempting Italian dishes which are all lovingly created with homemade pasta. Homemade pasta really excels over the mass produced variety so we recommend it at Marina Bay.

Children have not been forgotten, they also have their own menu of fabulous favourites to choose from.

After sunset as darkness falls, the Marina Bay Restaurant and Sunset Bar takes on a completely different ambience thanks to a careful choice of coloured mood lighting which highlights various parts of the premises in different hues. There is live music on offer in the evenings, ranging from pop/rock from the 80s and 90s to chillout, appealing to most age groups and tastes. In fact, customers often sing along to the classic numbers, and sometimes get up and dance. It's all part of the fun at Marina Bay!

This is a unique venue in an idyllic location where priority is given to good customer service and quality food at reasonable prices. Why not pop in, watch an amazing sunset, and enjoy a great gastronomic experience. We are sure you will want to return. ■
