## SENIOR CITIZEN SERVICE

# Free smoke detectors

At the end of November, the Lanzarote Department for Security and Emergencies launched a campaign to save lives and protect homes via an initiative that installs free smoke detectors for residents over the age of 65.

"The simple smoke detector has already more than proven itself. For the most part, it prevents incidents involving smoke from going unnoticed in the kitchen. Such incidents can be very dangerous, especially for older people," explains the president of the consortium Juan Manuel Sosa. Since the end of 2015, they have installed 100 such smoke detectors, which have saved at least eight lives. The only prerequisites for the free installation are to be over 65 and living alone. Simply apply for an appointment with the Consorcio de Emergencias or call 928 80 40 04. ■

## NORWEGIAN AIRLINES

# Flight base to close

The announcement that Norwegian Airlines will be closing its base in Tenerife, established since October 2013, initially caused consternation, but the news is not all bad. In a move aimed at increasing profitability, the base will close in November, as will those in Gran Canaria and Palma de Mallorca. However, 93 per cent of the company's current connections to Tenerife will be maintained.

Though the Rome-Tenerife South route will be cancelled in April and flights to Madrid will be reduced from nine to seven departures per week, Vueling and Neos will continue to provide direct flights between Rome and Tenerife, despite the downwards revision of expected growth in the Italian market from 14.2 to 9.5 per cent. The reduction of weekly flights from Tenerife North to Madrid signifies a decrease in seats for the summer of about 11,160. Nevertheless, thanks to connections by Ryanair, Iberia, Air Europa and the remaining Norwegian flights, the national market is expected to actually grow by 0.2 percentage points during that period.

Norwegian brought 503,849 passengers to Tenerife in 2018, representing an increase of more than 14 per cent over the previous year. The airline serves eight markets with connections to Tenerife: Denmark, Finland, Germany, Italy, Norway, Spain, Sweden and Great Britain. ■
