

Horoscope for period: January 24 to February 6

Aries 21.03 - 20.04
You don't need to belong to be a person and your need for love and approval heightens your appreciation of all those around you. This is a good time to share ideas, spread your wings a little and try and be a little more affirmative about who you are.

Taurus 21.04 - 20.05
Although everything is OK, you're not likely to get overly excited about too much at this moment in time. Your efforts are well received right now. You have a greater sense of self-worth, and a positive attitude that makes life seem interesting and full of purpose.

Gemini 21.05 - 21.06
Social gatherings and personal relationships are favoured. Given where we are in the world, open air meets and greets are a great start and could be the beginning of important work and social contacts for 2019. Initial contacts could be imperative.

Cancer 22.06 - 22.07
It's not like you to share; however, brainstorming with others and coming to a group consensus could be a major plus for all concerned. It's under the radar, but the warmth and good you generate now is likely to be a benefit to you, both now and later on.

Leo 23.07 - 23.08
Sometimes our innate guidelines give us a sense of well-being that set our troubles aside for the time being, and move us along our path in life. That can be a mistake if we ignore important problems in our day to day existence. Keep calm.

Virgo 24.08 - 23.09
This is a good time to give a speech, present your ideas publicly, or simply express your viewpoint to the people who matter the most in your life. If you are in a profession dealing with words, or communications, this is a very positive and fruitful time for you.

Libra 24.09 - 23.10
Your personal magnetism is strong and you attract appreciation, affection and attention at this time. Feelings of love, a desire for beauty, and the urge to be creative are strong. You beautify your surroundings, and should pay particular attention to your appearance.

Scorpio 24.10 - 22.11
This is a good time to treat yourself or do something fun just for you. This time period is harmonious and pleasant. Relationships are particularly enjoyable and productive now, cooperation is strong now, and you may receive a gift or offer from someone.

Sagittarius 23.11 - 21.12
This is a wonderful time to simply enjoy life and make the most of your friends and loved ones; you find it easy now to put any worries or concerns to the side. You are likely to spend some time with friends or take a weekend holiday, and thoroughly enjoy it. Have fun!

Capricorn 22.12 - 20.01
If you are unsatisfied with your job, you may apply yourself diligently to making yourself qualified for more suitable employment. You may work almost to the point of exhaustion. You forego pleasures and entertainments also if necessary.

Aquarius 21.01 - 20.02
There is much turmoil and personal crisis during this time period. In short, you must pursue your inner drives with dedication and earnestness. Your willpower and determination are strong, and you have the courage to go to the root of any problem.

Pisces 21.02 - 20.03
You are very clear and perceptive now. It's a good time to make a decision or come to an agreement, negotiate, exchange your views with others, and present your case. During this time period you may change many personal habits for the benefit of your health.
