

Horoscope for period: April 4 to April 17

Aries 21.03 - 20.04
At the New Moon on April 5, you wrestle with your own ability to express what lies deeply in your own heart. It's a time to renew your commitment to the transformations afoot and burst forth from the recent Spring Equinox with renewed optimism.

Taurus 21.04 - 20.05
Now is the time to preferably direct your psyche to, and concentrate on, positive things in your surroundings and what is good for your family and sentimental relationships. You must understand; perfection in human relationships is impossible.

Gemini 21.05 - 21.06
You will be called to go deep within yourself to understand your motives both within you and within others. This is a strenuous cycle for you strewn with small solutions that will build up. Hold your heart sacred and your ideals high!

Cancer 22.06 - 22.07
You will be called upon to accept responsibility in some way for those you cherish. Travel is very possible and the planetary line-up in your sign will magnify the way you view the unfolding events in your life. Don't make a drama out of a crisis.

Leo 23.07 - 23.08
The sorrows of your parents, children or close friends magnify in your mind and heart at this time. The Full Moon on April 19, being a time of completion, helps you to be strong and profound in moments of deep concern.

Virgo 24.08 - 23.09
Seek to spend some time alone or with your closest friends or family members. You cannot and shouldn't share what is in your heart with everyone. Dedication and ethics roll off your tongue with each small strategy.

Libra 24.09 - 23.10
You will be cornered by everyone. Expect to feel obligated to make commitments that are hard to make and keep. You will feel drawn to give attention to those less fortunate than you who have been kind to you in the past.

Scorpio 24.10 - 22.11
You love to find ways to expand your mind and horizons, especially when it comes to a close personal relationship. Kindness comes in a natural flow of experience. Listening well both inwardly and outwardly helps to enhance the experience.

Sagittarius 23.11 - 21.12
At the Full Moon on April 19, you blend with the creative and the brilliant! This is a fantastic time for imaginative escapes! You approach problems in a very fair and balanced way, which will increase your psychic instinct to richer levels!

Capricorn 22.12 - 20.01
Goats should keep their heads down and their attention on more serious concerns. You will have had the chance to come up for air and see things from afar. So now is the time for putting balance in your life, this should be a priority.

Aquarius 21.01 - 20.02
Your intuition is strongest if you choose not to possess the outcome of your efforts. Helping others and taking care of yourself will give you freedom. The love you have given returns to you tenfold. Radiant, intimate bliss!

Pisces 21.02 - 20.03
Taking an innovative approach to a staid process helps you advance to the next level, and implementing changes is a good thing. You must see yourself through new eyes now. Confidences shared must be honoured. Secure your mate.
